

BEAUTY

Beauty can be expressed in many forms and designs.

Camp Glenorchy seeks to create a warm, welcoming place that uplifts the human spirit. Our buildings will be deeply connected to the land and respectful of the environment. Throughout the site, visitors will discover creative touches that will both educate and delight.

From the vastness of the surrounding mountains to natural local materials, we are incorporating numerous sensory elements aimed at inspiring our visitors.

INFLUENCE & INSPIRE

We believe learning and discovery are natural ways to kindle interest in creating stewards of our larger world.

Our goal is to create a variety of on-site and online educational elements to inspire people to pause, reflect, embrace and perhaps carry home ideas for positive change in their own lives and communities.

PLACE CREATION

We are using natural materials to create gathering spaces that encourage our guests to come together and interact with each other.

We hope that shared experiences and long-lasting memories will nurture the creation of communities around the globe that feel connected to each other as well as Glenorchy's beautiful surroundings.

SENSITIVE DESIGN

Great attention is being given to the interior and exterior design of our buildings to convey a sense of warmth, light and cosiness.

All spaces will use healthy materials that are pleasant to see, touch and be surrounded by, at any time of year.

ARTISANS & CRAFTWORK

Artists and craftspeople are being recruited to incorporate beautiful and meaningful works of art throughout Camp Glenorchy.

Their creative touches will help us celebrate and highlight the landscape around us and tell the story of the remarkable beauty and history of this unique place.
